This years Swedish Masters I had high hopes unfortunately it didn't go exactly as I had planned. I played OK and I made top 16 in the mens single lost against Ulf Hedin.

In the mixed pairs I and my girlfriend Ingela played better than we hoped for. Our group was filled with top players. We started out by having a pass and then we met Tommy Pilblad/Anne Gustavsson and we won with 3-1. In the group final our opponents was Markus Korhonen/Maud Jansson both national team player for a couple of years. We won with 3-0 and we were in the quarterfinals. We didn't win that match but we came joint 5th and were really glad about that.

Mens pairs I played with my super dart partner Dennis Nilsson and we made it to the semi finals were we got beaten with 4-1 against Daniel Larsson/Kenneth Högwall who after that won the final.
