This weekend it was time to play a district ranking tournament, Spik Open. It was held at Stockholm Stadium, a beautiful arena. Started out on Saturday with mens single. I played steady all the way to the final where I didn't get it 100% so I lost 2-4 to Sven-Erik Lundberg who played really good and steady.

On the evening it was time to play mixed pairs and I was going to play with Ingela. We have started to play really good together, so that's fun. This evening we rocked. We won all three matches in the pool. We continued to win the first match after the pool pretty comfortable and we were in the quarterfinal. Another win and suddenly we were in semi-final and in mixed normally we win one or two games and that's it, so to be in the semi final together felt really good. Now we wanted it all and we made it to the final. One more game to be champion, and after a tight game against Grethel and Gunnar Glasö we won the final with 3-2. Felt so good to win with my darling Ingela.
